

Diss and District Neighbourhood Plan

Stuston Issues and Options Community Survey

About this Survey

Introduction

The Diss and District Neighbourhood Plan covers seven parishes. This survey contains some detailed questions for each parish which will mostly be relevant to the people who live there, plus a number of general questions applicable to all.

You can if you wish complete the survey for multiple parishes, for example if you live in STUSTON but you also want to answer the Diss questions you can also request the Diss version of this survey. Participation in the survey is totally voluntary but, if you decide to take part, your time is very much appreciated.

There are text boxes throughout this survey, some bigger than others for you to add a comment or to explain an answer. If you run out of space in one, feel free to use another text box (but please do remember to indicate what question your comments refer to!). There is also space at the end of the survey for you to add anything you think hasn't been covered.

If you'd like to find out more about the neighbourhood plan, or have a question relating to this survey, or indeed would like to act as a volunteer to help with this interesting work, please let your local parish clerk know, and a member of the steering group will be in touch.

All participants who complete the survey, can opt into a prize draw to win 5x £20 shopping vouchers. All responses will be treated as anonymous and you are not required to provide your name or contact details, except where you choose to enter into the prize draw.

By completing the survey, you consent to allowing your responses to be used by the Neighbourhood Planning project. All information will be stored securely on UK-based servers, compliant with GDPR rules. For further information, please see our Privacy Policy.

Thank you

1 Local Green Spaces

The Neighbourhood Plan will designate some green areas that are especially important to the community as Local Green Spaces. These need to meet a set of national criteria which requires them to be demonstrably special and hold particular significance to the local community. They may be demonstrably special by virtue of their beauty, historic significance, recreational value, tranquillity or richness of wildlife.

The following green spaces have been suggested by the Neighbourhood Plan working group in Stuston. The Common is not included in this list, as although very special to the community, it is too large and already has considerable protection as it is registered as Common Land.

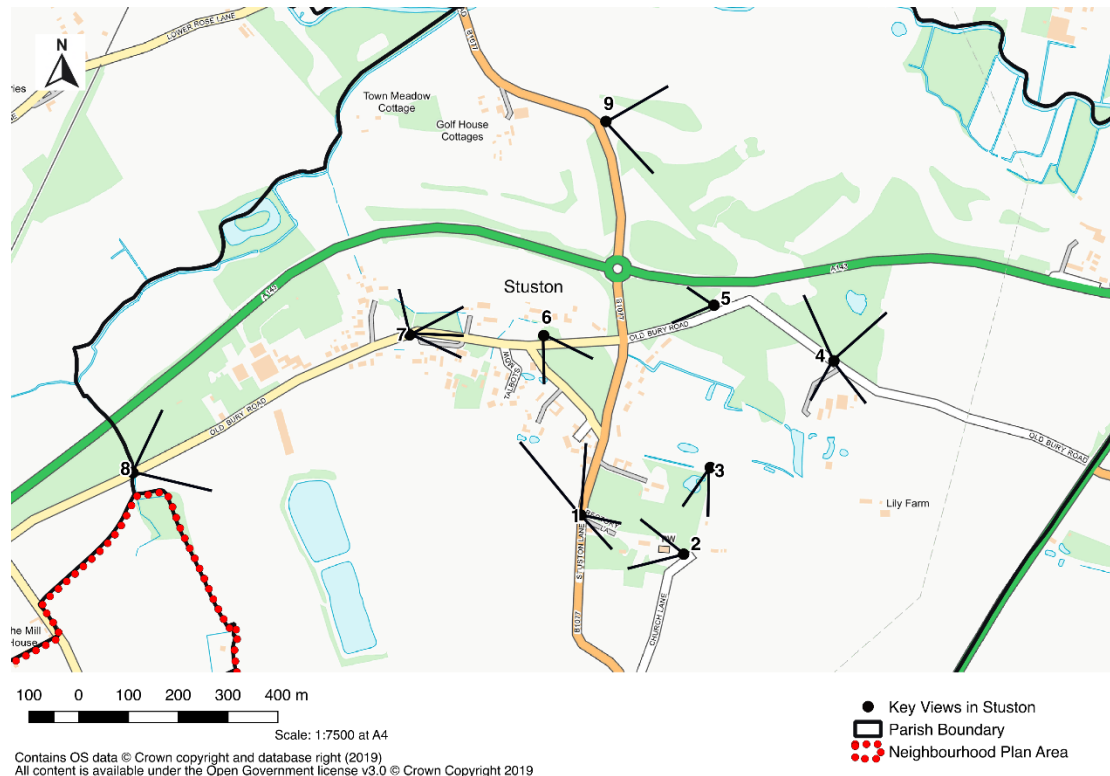

To what extent do you agree that these green spaces are special to you?

Please add any specific comments in the box below, which could include reasons as to why these green spaces are special to you, or any suggestions of green spaces we may have missed.

2 Key Viewpoints

The Neighbourhood Plan will identify key views within Diss & District which depict the area's special qualities. These may be of the landscape, iconic views of the village or historic features such as the church and its setting. The plan will seek to protect these views for future enjoyment. The following key views have been identified within Stuston:

To what extent do you agree that these views should be preserved for future enjoyment?

3 Heritage Assets

Protection already exists for the listed buildings in Stuston through national policy and guidance. The Neighbourhood Plan can add to this by identifying other buildings or structures of local historic importance, referring to them as non-designated heritage assets.

The local Historic Environment Record has been used as a starting point to identifying any assets of historic significance that are not already designated in some way. Local knowledge has been used to supplement this.

To what extent do you agree that these heritage assets are important?

Walking and Cycling

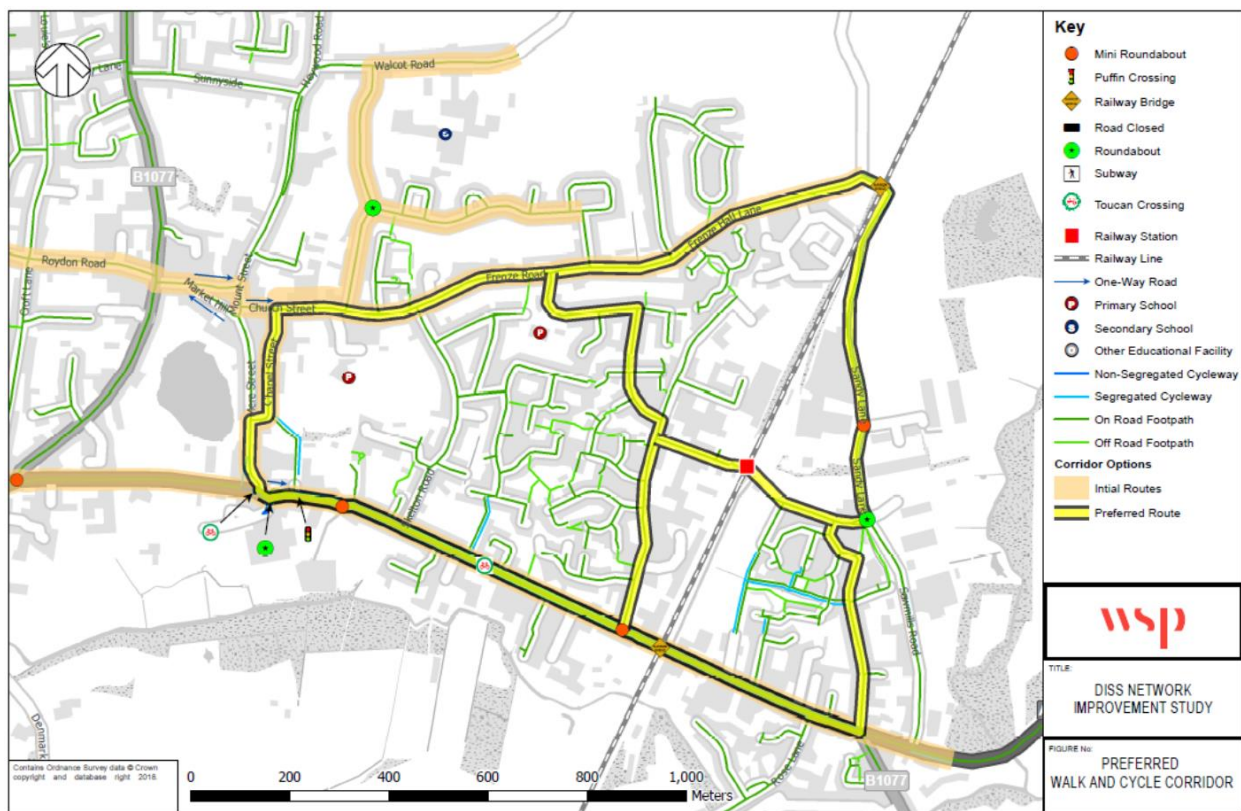

4 Walking and Cycling across the Neighbourhood Plan area

Helping people get about in a more healthy and sustainable way is important. The Neighbourhood Plan would like to encourage people to walk or cycle more, and for them to feel safe to do so.

A plan for the Diss network has been developed; note that this does not yet include the new development at Walcott Green and its pedestrian/cycle link.

This needs a number of improvements, especially to help people wishing to cycle.

These improvements are listed below.

Can you indicate which are your top five priorities for improvements?

General Questions

12 Diss Leisure Centre

The Neighbourhood Plan is ambitious about a new Leisure Centre opening in Diss which provides better facilities and becomes a hub for local services based in the community. It is not possible to deliver this on the current Leisure Centre site just off the A1066, so a new site will need to be found. What factors do you think are important when selecting a site for the new Leisure Centre?

- Close to the town centre
- Good highway access and easy to get to for residents of surrounding parishes, avoiding mostly residential roads
- Good access for people wanting to walk or cycle
- Ample room for parking
- A brownfield or previously developed site rather than green open space
- Avoid land protected for nature conservation

13 Housing Mix

Getting the right mix of houses on any site is important, whether the site is allocated in the neighbourhood plan or whether it is a 'windfall' site. The term 'windfall sites' is used to refer to those sites which become available for development unexpectedly and are therefore not included as allocated land in a planning authority's development plan.

Do you think the neighbourhood plan should have a policy that provides strong guidance on the housing mix as part of any development?

- Yes No No Opinion

14 Density of Houses

Although it is important to make good use of land, in rural areas high density development may be out of character. Should we have a policy in the Neighbourhood Plan to ensure that the density of houses in any new development reflects the character of the surrounding area?

- Yes No No Opinion

15 If you answered yes to the last question, do you think a policy should include any of the following (please tick all that you support)

- The mix should include homes for rent as well as for sale
- The policy should have something on the size of houses required/ number of bedrooms (this would depend on the needs of each community)
- The policy should require any proposed development to take on board the housing mix in the Diss and District Housing Needs Assessment report, which includes the type of affordable/ social homes needed.
- Other (please specify):

16 Affordable Housing

At the moment, any affordable/ social homes for rent that are built in Diss are made available first to residents of Diss. If there any such homes still available, South Norfolk Council uses a cascade, so that they are then offered to former residents of Diss, and then to residents of neighbouring parishes.

The neighbouring parishes that benefit from this and are in the Neighbourhood Plan area are Scole, Roydon and Burston and Shimpling as these are the ones in South Norfolk. However, there are also three Mid-Suffolk parishes in the neighbourhood plan area: Palgrave, Brome and Oakley, and Stuston, the residents of which are not eligible as part of the cascade.

Do you think the cascade used by South Norfolk Council for affordable / social housing should include the mid-Suffolk parishes, so that residents of those parishes also become eligible for affordable / social housing for rent in Diss?

- Yes No No Opinion

17 Self-Build

Previous consultations found support for people wishing to build their own homes. Do you think that larger developments should set aside some plots for self-builders?

- Yes No No Opinion

18 Townscape and Design

Design, such as the materials used to build the houses, is important for retaining local character and sustaining local identity. The Neighbourhood Plan has produced a document on design (called Diss and District Design Codes) which describes the housing designs and materials that are typical of the area. Do you think we should have a policy that requires development to use the Design Codes for the area and to reflect local identity and styles?

Yes

No

No Opinion

19 Dark Skies

In some parts of the neighbourhood plan area, away from Diss and the main villages, there are intrinsically dark skies. Intrinsically dark landscapes are those entirely, or largely, uninterrupted by artificial light. Light pollution can have a negative impact on dark skies, making it more difficult to see the stars and changing the feel of these tranquil areas. It also impacts upon wildlife and is a major cause of the large and rapid decline in insect populations.

Should the Neighbourhood Plan have a policy that aims to limit light pollution in these areas?

Yes

No

No Opinion

20 Wildlife

The Neighbourhood Plan area has some lovely countryside and is fortunate to have many, much appreciated habitats for wildlife. People have noted that wildlife numbers are falling, and there is a need to improve or create areas for wildlife by planting new trees, meadows and hedgerows. For example in locations along the river. These, when linked together would form a network that supports an increase in wildlife.

Do you think the neighbourhood plan should have a policy that requires developments to improve areas for wildlife, including creating new areas?

Yes

No

No Opinion

21 Traffic

Traffic is one of the biggest concerns amongst local people. Additional housing will of course generate more traffic. This can affect congestion, such as at some key junctions that are already subject to traffic queueing, particularly on the A1066. In the villages, traffic speeds are often a concern. However, development can also sometimes deliver for highway improvements.

Do you think that the proposed allocation north of the cemetery in Diss should provide a new road linking Shelfanger Road with Heywood Road?

Yes

No

No Opinion

22 Do you think that any major development (which is 10 or more homes) that is likely to have an impact on the A1066 should be required to provide evidence of that impact, particularly in the rush hour, and help to address any worsening in congestion?

Yes

No

No Opinion

23 Do you think development, especially in the villages, should be required to provide measures or be designed to better manage traffic speeds?

Yes

No

No Opinion

24 Diss town centre is very popular, especially for shopping and it is vital to manage any change of use to support the vitality of the town centre. Retail has been undergoing change for some time with the advent of internet shopping and the lockdown has accelerated this, risking more and more empty shops.

The Neighbourhood Plan could have a policy that aims to support retail, but which focuses on enhancing the town centre more generally, including by making good use of empty shops that are unlikely to sustain retail. Would you support such a policy?

Yes

No

No Opinion

25 Digital Connectivity

Good broadband is important for many of us, especially those who work from home and the lockdown has highlighted this. The neighbourhood plan could have a policy that requires the new housing to have a certain broadband speed as a minimum. The policy could also support the installation of new broadband infrastructure. Would you like to see such a policy?

Yes

No

No Opinion
